As you can see, we have got a lot to do if the Parish is to run successfully. At the moment, we have few people doing too much and they are getting older! Can you help?

It is understandable if you feel unable to commit because of pressure of work, family or any other reason. However, if you can give a bit of your precious time and expertise, it would be very helpful and very much appreciated. Even if it is only a couple of hours a year.

Thanks for your availability.
